

LONESTAR complete line of Vacuum Trailers are engineered and designed to tackle the toughest applications in all major markets including Environmental, Industrial, Military, Grease, Septic, Oil and Gas, and Construction. LONESTAR specializes in Rotary-Vane, Blowers, and Liquid Ring pump systems. LONESTAR Vacuum Trailers are available in our standard configurations, custom configurations, and non-CDL trailers. LONESTAR Vacuum Trailers are a fully hydraulic operating system eliminating the need for belts and increasing the unit's dependability.
